*“We had the best meal we’ve had on our trip thus far.
Wow! You have taken such good care of us, thank you.”*

T Gressette May 2017

**Our guests’ love of gardens, history and food has inspired us to create
a day which incorporates all three, making a truly
unique and memorable experience.**

Guided Tour of the Manor House

You are personally invited to a private tour of one of the oldest English estates in the country. Your host follows in the footsteps of many generations of his family living on the estate, and he will share the stories of growing up in a house with so much history and so many stories to tell.

Foraging in the Estate

You can then make the most of the stunning parkland and woodland as you are guided by an expert forager who will help you to find the fabulous wild ingredients growing on the estate.

Foraging is a growing passion and interest as the experts love to share their knowledge of wild growing food and how to create delicious meals from what you find.

Lunch in the Manor House

We are delighted to invite you to re-join your host for a delicious lunch in the main dining room, your lunch will include some of what you have foraged, so you can enjoy feasting on the results of your morning exploration.

Prices from £850 +VAT per person
