Personal, imaginative and authentic: the most engaging tour of Midsomer that you will find

The beauty of the villages in the Chilterns make it hard to believe that they have played host to some of the most imaginative murders seen on TV. The investigative styles have been equally varied from Miss Marple to Inspector Lewis, as they have pursued the perpetrators from Hambleton to Turville. Let us guide you, very safely, through these stunning English villages, providing the stories behind the facades and sharing the very best venues for a revitalising coffee and a heart-warming lunch.

Create your own experience. Your chauffeur and your guide will bring every location to life and ensure that you don't miss a thing. Available all year.
